

JailTracker Software Work Order

Date: 5/28/2021
Prepared by: Richard Mackin

Customer Name: Fayette County Detention Center
Customer Contact: Tony Gray
tgray@lexingtonky.gov
859-425-2712

Reason for Order: Request from agency create and implement two new databases (one for Electronic Monitoring and one for Adult Probation).

JailTracker Responsibilities:

JailTracker Technical Services personnel will assist with the following tasks:

1. Create backup of current production environment and restore the information in both new databases.
2. Run scripts that will remove all offender information while maintaining selections lists.
3. Provide agency the proper configuration file location for each database.
4. Test and ensure proper functionality.

Customer Responsibilities:

1. Ensure adequate storage is available for two new databases
2. Work in concert with JailTracker staff too allow remote access to implement the databases.
3. Install the associated clients for the databases on the authorized workstations.

Outside of Scope:

The following items are not contained within the scope of this project:

1. Training- Agency will provide their own training to their staff
2. Custom Reports/Forms- Responsibility of the agency to create any new custom forms/custom reports
3. Integrations- There are no integrations associated with this order. If integrations are needed, a separate order and level of scope must be determined.
4. Configurations- Configurations of the JailTracker client for workflows will be the responsibility of the agency.
