Laws and Regulations

All applicable state laws, municipal ordinances and regulations of all authorities having jurisdiction over the project shall apply to the contract, and shall be deemed to be incorporated herein by reference.

Equal Employment Opportunity

The Entity (regardless of whether construction contractor, non-construction contractor or supplier) agrees to provide equal opportunity in employment for all qualified persons, to prohibit discrimination in employment because of race, color, creed, national origin, sex or age, and to promote equal employment through a positive, continuing program from itself and each of its subcontracting agents. This program of equal employment opportunity shall apply to every aspect of its employment policies and practices.

Kentucky Equal Employment Opportunity Act

The Kentucky Equal Employment Opportunity Act of 1978 (KRS 45.560-45.640) requires that any "county, city, town, school district, water district, hospital district, or other political subdivision of the state shall include in directly or indirectly publicly funded contracts for supplies, materials, services, or equipment hereinafter entered into the following provisions:

"During the performance of this contract, the contractor agrees as follows:

- (1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, age, or national origin;
- (2) The contractor will state in all solicitations or advertisements for employees placed by or on behalf of the contractors that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, age, or national origin;

(3) The contractor will post notices in conspicuous places, available to employees and applicants for employment, setting forth the provision of the nondiscrimination clauses required by this section; and

(4) The contractor will send a notice to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding advising the labor union or workers' representative of the contractor's commitments under the nondiscrimination clauses."

The Act further provides:

"KRS 45.610. Hiring minorities -- Information required

(1) For the length of the contract, each contractor shall hire minorities from other sources within the drawing area, should the union with which he has collective bargaining agreements be unwilling to supply sufficient minorities to satisfy the agreed upon goals and timetables.

(2) Each contractor shall, for the length of the contract, furnish such information as required by KRS 45.560 to KRS 45.640 and by such rules, regulations and orders issued pursuant thereto and will permit access to all books and records pertaining to his employment practices and work sites by the contracting agency and the department for purposes of investigation to ascertain compliance with KRS 45.560 to 45.640 and such rules, regulations and orders issued pursuant thereto.

KRS 45.620. Action against contractor -- Hiring of minority contractor or subcontractor

(1) If any contractor is found by the department to have engaged in an unlawful practice under this chapter during the course of performing under a contract or subcontract covered under KRS 45.560 to 45.640, the department shall so certify to the contracting agency and such certification shall be binding upon the contracting agency unless it is reversed in the course of judicial review.

(2) If the contractor is found to have committed an unlawful practice under KRS 45.560 to 45.640, the contracting agency may cancel or terminate the contract, conditioned upon a program for future compliance approved by the contracting agency and the department. The contracting agency may declare such a contractor ineligible to bid on further contracts with that agency until such time as the

contractor complies in full with the requirements of KRS 45.560 to 45.640.

(3) The equal employment provisions of KRS 45.560 to 45.640 may be met in part by a contractor by subcontracting to a minority contractor or subcontractor. For the provisions of KRS 45.560 to 45.640, a minority contractor or subcontractor shall mean a business that is owned and controlled by one or more persons disadvantaged by racial or ethnic circumstances.

KRS 45.630 Termination of existing employee not required, when

Any provision of KRS 45.560 to 45.640 notwithstanding, no contractor shall be required to terminate an existing employee upon proof that employee was employed prior to the date of the contract.

KRS 45.640 Minimum skills

Nothing in KRS 45.560 to 45.640 shall require a contractor to hire anyone who fails to demonstrate the minimum skills required to perform a particular job."

It is recommended that all of the provisions above quoted be included as special conditions in each contract. In the case of a contract exceeding \$250,000, the contractor is required to furnish evidence that his workforce in Kentucky is representative of the available workforce in the area from which he draws employees, or to supply an Affirmative Action plan which will achieve such representation during the life of the contract.

LFUCG Non-Appropriation Clause

Contractor acknowledges that the LFUCG is a governmental entity, and the contract validity is based upon the availability of public funding under the authority of its statutory mandate.

In the event that public funds are unavailable and not appropriated for the performance of the LFUCG's obligations under this contract, then this contract shall automatically expire without penalty to the LFUCG thirty (30) days after written notice to Contractor of the unavailability and non-appropriation of public funds. It is expressly agreed that the LFUCG shall not activate this non-appropriation provision for its convenience or to circumvent the requirements of this contract, but only as an emergency fiscal measure during a substantial fiscal crisis, which affects generally its governmental operations.

In the event of a change in the LFUCG's statutory authority, mandate and mandated functions, by state and federal legislative or regulatory action, which adversely affects the LFUCG's authority to continue its obligations under this contract, then this contract shall automatically terminate without penalty to the LFUCG upon written notice to Contractor of such limitation or change in the LFUCG's legal authority.

EQUAL OPPORTUNITY AGREEMENT

The Law

- Title VII of the Civil Rights Act of 1964 (amended 1972) states that it is unlawful for an employer to discriminate in employment because of race, color, religion, sex, age (40-70 years) or national origin.
- Executive Order No. 11246 on Nondiscrimination under Federal contract prohibits employment discrimination by contractor and sub-contractor doing business with the Federal Government or recipients of Federal funds. This order was later amended by Executive Order No. 11375 to prohibit discrimination on the basis of sex.
- Section 503 of the Rehabilitation Act of 1973 states:

The Contractor will not discriminate against any employee or applicant for employment because of physical or mental disability.

- Section 2012 of the Vietnam Era Veterans Readjustment Act of 1973 requires Affirmative Action on behalf of disabled veterans and veterans of the Vietnam Era by contractors having Federal contracts.
- Section 206(A) of Executive Order 12086, Consolidation of Contract Compliance Functions for Equal Employment Opportunity, states:

The Secretary of Labor may investigate the employment practices of any Government contractor or sub-contractor to determine whether or not the contractual provisions specified in Section 202 of this order have been violated.

The Lexington-Fayette Urban County Government practices Equal Opportunity in recruiting, hiring and promoting. It is the Government's intent to affirmatively provide employment opportunities for those individuals who have previously not been allowed to enter into the mainstream of society. Because of its importance to the local Government, this policy carries the full endorsement of the Mayor, Commissioners, Directors and all supervisory personnel. In following this commitment to Equal Employment Opportunity and because the Government is the benefactor of the Federal funds, it is both against the Urban County Government policy and illegal for the Government to let contracts to companies which knowingly or unknowingly practice discrimination in their employment practices. Violation of the above mentioned ordinances may cause a contract to be canceled and the contractors may be declared ineligible for future consideration.

Please sign this statement in the appropriate space acknowledging that you have read and understand the provisions contained herein. Return this document as part of your application packet.

Bidders

I/We agree to comply with the Civil Rights Laws listed above that govern employment rights of minorities, women, Vietnam veterans, handicapped and aged persons.

Identify the specific population your program is targeting (i.e. age, geographical region, economic status, etc.) and explain why. Discuss whether this population is under-served or at-risk. Describe your understanding of the local system of services addressing this problem, obstacles and/or opportunities your clients face, and how your agency fits within this system of services.

Overdose deaths involving opioids are higher in Fayette County (82%) than in KY overall (Lexington Fayette Urban County Government, 2018). Deaths occurring in Fayette County have increased over the last few years with a total of 187 in 2017. In 2020, the number of deaths surpassed 200 for the first time since overdose deaths were recorded (Lexington-Herald Leader, 2/5 2021). The number of individuals receiving care in an emergency department or inpatient hospitalization in Fayette County following an overdose also increased with 1,432 emergency department visits and 933 hospitalizations in 2017 (KY Injury Prevention and Research Center, 2018).

This project will target pregnant and parenting women with substance use disorder (SUD) and co-occurring mental health disorders. The Chrysalis Pregnant and Postpartum Women Annual Report (1/2/2019-9/30/2020) indicate that upon admission 62.4% of women admitted to the use of heroin/other opiates and 61%, methamphetamine in the past 30 days on the street. A significant minority reported marijuana (47.5%) and benzodiazepine (20.3%) use in their last 30 days on the street; and 46% reported injecting drugs in their last 30 days on the street. Over half (56%) reported experiencing an overdose (UK Center on Drug and Alcohol Abuse, 2020).

Pregnant and postpartum women with SUDs, are under-identified, under-served, and experience disparities in service access, use and outcomes (SAMHSA, 2016). Chrysalis prioritizes pregnant/parenting women for long-term residential SUD treatment and allows children to reside with their mothers throughout the duration of her stay, removing the barrier of childcare issues for women who have custody.

5.1.2 Service Delivery Model

15 Points

What steps will you take or what activities will you provide to assist clients in achieving these goals? Describe each “unit of service” you will provide for clients and how often and how long this service will be provided (e.g. a one-time three-hour training; a weekly one-hour support group for 12 weeks; one 30-minute health exam twice a year; 1-3 hour advocacy services as needed; etc.) How will these services address the problem as identified in the Needs Statement above? Be specific.

Chrysalis’ primary objective is to improve outcomes for women with SUD and their children. A strong core design is used to include approaches, interventions, and services effective in reaching and retaining women. Strategies are most effective when designed to address needs beyond SUD treatment, such as mental health issues, trauma, housing, childcare, employment, parenting, and other personal supports (King, Duan, & Amaro, 2014).

Chrysalis is a Behavioral Health Service Organization licensed as an Alcohol and Other Drug Entity to provide Residential/Transitional SUD Treatment. Chrysalis is accredited by CARF for its residential SUD programs and has received ASAM Level of Care (LOC) 3.1 and 3.5 certification. Residential services for SUD treatment is a 24 hour/day (unit of service) for the purposes of providing intensive treatment and skills building in a structured and supportive environment to assist patients in achieving recovery from SUD.

SUD treatment approaches need to help women find safety, develop effective coping strategies, and recover from the effects of trauma and violence (SAMHSA Tip 51). Chrysalis’ residential treatment programs provide 40 hours per week of structured professionally directed services. Groups and activities offered at least one-hour weekly include: Corrective Thinking, Nurturing Families and other EBP parenting curriculums, 12 Step Support Groups and Step Studies, Relapse Prevention, Healthy Relationships, Seeking Safety, Wise Minds, Computer Skills, GED Tutoring, Job Readiness, Group Process Therapy, Adult Daily Living Skills, Addictions 101, Domestic Violence Education, Mother/Child Attachment, Self-Care and Coping, Positive & Social Communication, Motivation to Change, Spiritual Connections in Recovery, Family Education Groups/Meetings, and Individual Therapy.

5.1.3 Client Eligibility and Requirements

5 Points

What eligibility requirements must clients meet to qualify for services? What are the expectations of clients while receiving services? (e.g. client must pay \$30 fee for each class; client must remain sober; client is responsible for chores; nothing other than participation in services; etc.)

Chrysalis accepts adult pregnant and/or parenting women who meet DSM-5 criteria for SUD, severe or moderate and assess as needing ASAM LOC 3.1 or 3.5 residential treatment. There are no exclusions on readmissions; a woman may be re-admitted as long as she continues to meet ASAM LOC 3.5 or 3.1 criteria. Women who return to use while receiving treatment work with their treatment team to complete a chain analysis to identify triggers, risk factors for further use, coping skills and recovery support. A return to use during treatment does not automatically result in expulsion from the program unless illicit substances are found on the person or in a Chrysalis facility.

To alleviate financial barriers to treatment, there are no fees for admission. Upon admission staff review with the patient their Recovery Handbook containing patient rights, grievance process, house rules and daily schedules to ensure comprehension. Chrysalis' Job Readiness Program assists patients with GED tutoring, computer classes, vocational training, and job placement. Once a resident obtains employment, she contributes 30% of her gross income toward the cost of room and board. If a resident receives assistance through the Supplemental Nutritional Assistance Program she will contribute a portion of her allotment to the program for meal service.

In addition to obtaining employment, while in residential treatment patients learn life skills by completing daily chores related to maintaining a household, developing a household budget to prepare for independent living and self-sustainability, and accessing public transportation, community resources, and recovery support systems.

5.1.4 Evidence-Based/Best Practice

10 Points

Describe the evidence-based or promising practice model on which this service approach is based. Provide particular sources that indicate what you are doing is best-practice.

Chrysalis provides trauma-informed services to improve treatment outcomes for pregnant and parenting women. The EBPs for this project identify best practices for providing comprehensive services and stress treatment of multiple life domains concurrently.

The use of medically assisted treatment (MAT) for the care of pregnant women with OUD is a recommended best practice (American College of OB/GYN, 2012). During the postpartum period, considerations are needed for women with OUD to ensure pain management and prevent relapse and risk of overdose. The Chrysalis treatment team works with the patient and the prescriber to coordinate care and provide the most effective interventions.

Research shows that a combination of medication and behavioral therapies is most successful for SUD treatment (A Collaborative Approach to the Treatment of Pregnant Women with OUD, SAMHSA). Chrysalis integrates SUD treatment with mental health treatment. Cognitive Behavioral Therapy, including Motivational Enhancement Therapy and Dialectic Behavior Therapy, is used for individuals and groups. The EBP curriculum Seeking Safety is used to address trauma and facilitate recovery. The Chrysalis Domestic Violence Therapist provides the EBP psychotherapy Accelerated Resolution Therapy to foster rapid recovery by reprogramming how the brain stores traumatic memories and imagery. Charting a New Course is used to help individuals identify and change irresponsible thinking. Anger Management for SUD and Mental Health Patients is used to target the emotional and physiological components of anger and help to strengthen assertiveness and conflict resolution skills. Ideas for Better Communication is used to help women develop better skills for relationships in recovery.

5.2 Program Measures & Evaluation

5.2.1 Service Efficacy & Desired Outcomes

10 Points

What do you hope to help your clients achieve? What are some examples of goals you will set with clients? What is your service philosophy in terms of helping your clients achieve these goals? Describe how you define “successful” completion of services. (e.g. service is complete if: client remains for entire three-hour training; client continues services until judge orders otherwise; etc.) What percentage of clients meet that criteria for success?

Sobriety and self-sufficiency are the overarching goals of the program. A person-centered plan is developed with each patient with goals and objectives related to recovery, parenting, relationships, mental and physical health, employment, and safe and affordable housing. Chrysalis combines behavioral therapies, and MAT if appropriate and desired, with counseling and life skills to help patients achieve their goals.

Chrysalis' philosophy is to provide a safe and nurturing environment for women and their children to heal from past trauma and attain recovery from substance use and mental health disorders.

Patients transition through 3 phases of treatment. To transition from Phase I (ASAM LOC 3.5) to Phase II (LOC 3.1) patients must show an understanding of the program; participate in the assessment and treatment-planning process; provide negative drug screens; identify triggers; engage in psycho-educational groups; and utilize basic recovery skills. To transition to Phase III (continuation of LOC 3.1) patients must start building support systems; demonstrate individual and family-based coping skills; maintain sobriety, appropriately advocate for unmet needs; and show a transition from external to internal motivation.

In order to successfully complete treatment, patients must maintain sobriety while taking a leadership role in residential treatment; transition to greater self-sufficiency, show an increase in self-awareness and relationship skills; and attain resources necessary for independent living.

In 2019, the average length of stay for successful completions was 176 days and 60 days for those who did not complete.

5.2.2 Client Empowerment & Community Impact

10 Points

Describe what meaningful difference these services make in the lives of people served. What value is added to the community? Provide examples. (e.g. client demonstrates change in attitude; client has behavior change; etc.)

Women admitted to Chrysalis receive a wide array of clinical and recovery support services. An individualized treatment plan is developed with each woman and a multidisciplinary team consisting of case managers, therapists, nurses, job readiness, admissions/transitions, and aftercare coordinators, and a psychiatrist. The treatment plan integrates services the patient believes will benefit her and her family. Chrysalis utilizes a family-centered treatment approach that extends beyond SUD treatment by involving mental health and medical services, collaboration with the Dept. for Social Services, family court, criminal justice system and other agencies who interact with and serve the families. This approach provides a variety of clinical and support services that meet the needs of family members, not just the individual receiving treatment.

Communities also benefit when individuals receive treatment. Research on SUD treatment consistently shows reduced costs associated with lost productivity, crime and incarceration; the largest economic benefit is seen in avoided costs of crime (NDIC, 2011). Persons with untreated SUDs use twice as much healthcare as those with treated SUDs. Medications treating SUDs in pregnant women result in shorter hospital stays than those not receiving MAT. Total healthcare costs were 30% less for individuals receiving MAT than for individuals not receiving MAT (Medicaid.gov). The National Library of Medicine reports untreated individuals with SUD use healthcare and incur costs at a rate about twice that of their age and gender cohorts. Once treatment begins, total health care utilization and costs drop, reaching a level that is lower than pretreatment initiation.

5.2.3 Data Assessment & Quality Improvement

10 Points

While it doesn't have to be complicated, evaluation is more than saying "we provided this many 'units of service.'" How will you know if your services have been effective? How does this relate to the desired outcomes for your clients? How will the information gathered be used to improve your services in the future? Be specific (for example, data collection may be through focus groups, pre-and post-tests, client satisfaction surveys, etc.), and also **be specific regarding sampling size and frequency of evaluation.**

Chrysalis offers a comprehensive array of services addressing:

5.3.2 Partnership & Resource Leverage

5 Points

How do your programs and services support our community's comprehensive response to the identified priority area of Community Wellness & Safety? Does your organization have any formal agreements or informal working relationship with other local service programs?

What role does your governing board members, volunteers, and / or donors play in facilitating viable service delivery and program administration? Does your program have any major civic benefactors or corporate sponsors? Describe other secured funding sources and committed operational resources your organization has allocated for the proposed program.

Chrysalis is the only licensed long-term treatment facility for pregnant and parenting women in Fayette County that provides integrated treatment for substance use and mental health disorders. Chrysalis has over 70 MOUs in place with various community agencies to ensure continuity of care and services that empower women.

These MOUs ensure all Chrysalis residents have access to a comprehensive continuum of care and holistic services. Community partners provide primary and acute medical services; medical and non-medical withdrawal management; adult and child psychiatric services with medication management; obstetrical, gynecological, and postpartum care; adult and child psychological services; MAT with counseling; housing services; transportation assistance, employment assistance and educational services; faith-based services; and financial planning, credit repair, and budgeting services. To achieve service coordination and integration, Chrysalis invites partners to regular Continuous Quality Improvement, patient treatment team, and staff meetings.

The role of the Chrysalis House governing board is to determine policies, procedures, and regulations for the organization; to assist in securing funds to support the mission of the organization; and to monitor organizational performance. Chrysalis does not have any major civic benefactors or corporate sponsors; however, an endowment fund has been established at Blue Grass Community Foundation so contributions may be made to Chrysalis following their guidelines. Secured funding for our Chrysalis Court pregnant and parenting women program for FY2020 includes: Federal grant funding \$130,000; State funding \$75,000; SNAP benefits \$18,000 and projected Medicaid revenue \$ 185,000.

5.3.3 Outreach & Inclusion Strategy

15 Points

Demonstrate how the program will ensure services are available and accessible by all potential participants, especially related to language barriers for persons with limited English proficiency; persons with physical or other disabilities; and persons impacted by poverty and economic distress.

Has your organization enacted any policies (or employs any standard operating procedures) to ensure equitable service opportunity and / or benefit program to a diverse cross-section of the greater community? How does your proposal support or enhance the recommendations made by the Mayor's Commission on Racial Justice & Equality?

Women are not unlawfully discriminated against in determining eligibility for treatment. Individuals have the right to receive services without discrimination based on race, color, age, religion, national origin, domestic/marital status, political affiliation or opinion, veteran's status, physical/mental handicap, or ability to pay for services.

Chrysalis is committed to providing culturally and linguistically appropriate treatment and ensures that all communication, both verbal and written, reflect the appropriate literacy level for patients. Patients may use utilize bilingual staff, paid interpreters, or Language Line Services free of charge.

Chrysalis has policies to eliminate financial barriers that engage and retain women in treatment, including no admission fee and no charge for services. The target population is especially vulnerable; many reflect generations of SUD, trauma, and experience disparities in accessing and utilizing healthcare. Most are single mothers in poverty, have low educational levels and limited coping skills and are involved with criminal and/or family court. The practices chosen help women achieve recovery while building self-esteem and addressing issues of shame, isolation, and inadequacy.

Examples of targeted outreach include the Fayette County Needle Exchange to provide information on treatment at Chrysalis and conduct the Screening Brief Intervention and Referral to Treatment if requested; Family Court; Sobriety, Treatment and Recovery Team, a specialized DCBS team assigned to women/families at risk of having children removed due to SUD; Fayette County Jail and KY DOC to target incarcerated pregnant/parenting women with SUD preparing for release; and Probation and Parole and Drug Court to serve justice-involved pregnant/parenting women with SUD.
