## ADDENDUM

### **DETENTION CENTER RECOVERY PROGRAM**

**PROGRAM SUMMARY:** Both innovative and creative, the Detention Recovery Programs provides daily, full-day recovery services Monday – Friday to inmates of the Fayette County Detention Center. To complete the program, participants take an average of 92 classes and attend 204 meetings. Program capacity is 15 women and 30 men, and the program serves about 106 participants annually. Program goals are success completion of all program components. All participants receive daily lessons in the 12-Steps and Recovery Dynamics, supplemented with additional classes. Community Meetings, held 2-3 times weekly, address issues that arise from day-to-day community living. Participants hold themselves and their peers accountable for conduct and a commitment to change. The community meetings help participants by identifying specific issues that may be impeding recovery, such as a loss of focus, reoccurring destructive behaviors or unacceptable program behavior. The community members make suggestion, and through a vote select a learning experience that will help the participant gain insight into the need for change. Cognitive Behavioral Intervention (CBI), is presented in two course, Thinking for a Change, and Problem Solving for Offenders. Both courses are endorsed by the National Institute of Corrections to promote effective changes in offender thinking patterns. The courses teach offenders to change and manage antisocial feelings and thinking; increase self-control, self-management and problem solving skills; and to recognize risky situations and develop plans to deal with them. Transition planning starts about halfway through the program.

The Detention Recovery Program addresses the bonus point-eligible need area of substance abuse; and we request these bonus points.
